

REMARKS/ARGUMENTS

Applicant would like to thank the Examiner for the careful consideration given the present application. The application has been carefully reviewed in light of the Office Action, and amended as necessary to more clearly and particularly describe the subject matter that Applicant regards as the invention.

Review of the subject application in view of the present amendment/remarks is respectfully requested.

Drawings & Specification

As to the inconsistencies of reference numerals between the drawings and the description, the description has been amended to refer to the reference numerals indicated in FIG. 11.

Moreover, the section headings have been inserted to indicate the arrangement of the specification.

Furthermore, the abstract has been amended to comply with the requirements of length and phraseology.

Therefore, it is believed that all of the objections have been overcome.

Claims

The claims have been amended to remove any improper multiple dependency and comply with 37 CFR 1.75(c). As amended, only claim 5 is a multiple dependent claim.

Claim 15 has been newly added and recites the same limitations as claim 12 except that it depends from claim 11. Thus, no new subject matter is claimed.

In light of the foregoing, it is respectfully submitted that the present application is in condition for allowance and notice to that effect is hereby requested. If it is determined that the

application is not in condition for allowance, the Examiner is invited to initiate a telephone interview with the undersigned attorney to expedite prosecution of the present application.

If there are any additional fees resulting from this communication, please charge same to our Deposit Account No. 16-0820, our Order No. EGLI-41258.

Respectfully submitted,
PEARNE & GORDON, LLP
